

Solvent-free Products

For metal repair & replacement

Low odour & ECO friendly products

Ideal for solvent sensitive and odour sensitive areas

Chemco have developed a range of non-flammable styrene-free metal repair compounds. They do not require any special ventilation during application and do not suffer from solvent emission. They are designed to be ideal replacements for styrene containing polyester and vinyl ester repair systems.

RH 500 - High-build repair replacement putty that is machinable in less than 3 hours.

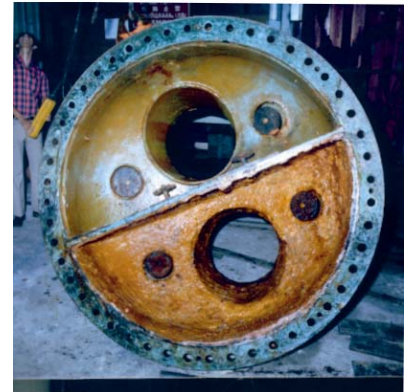

RP 500 - A very smooth and extremely hardwearing topcoat ideal for metal repairs, pipe and pump internals where there is excessive fluid friction and flow problems. The product is so hard that it can only be machined within 2 hours of application. It will help to reduce energy demand and wear on the internal surface of any process equipment.

RU 500 - Similar to RP 500 except that it exhibits very good chemical and thermal durability. Ideal for extremely corrosive conditions.

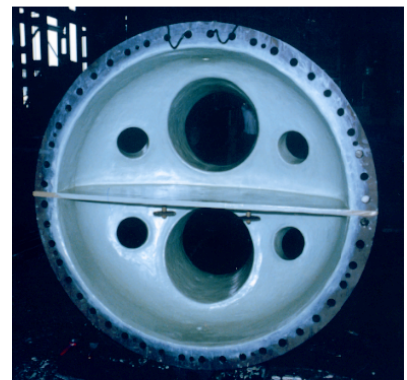

Chemco also offer traditional polyester and vinyl ester based repair systems – RA 208 and RA 308.

RU 500 & RH 500 used to repair a gas separator

Chemco manufactures an extensive range of products which are designed to meet every corrosion and containment challenge. We offer unlimited technical support including site survey, estimation, inspection and application assistance. An extensive list of our products and industry uses are listed below:

Products

- Glassflake coatings
- Coatings in contact with food & beverage
- Damp or green concrete primers and coatings
- Floor coatings
- Rust converters and primers
- Under-water coatings
- Anti-static and conductive coatings
- Elastomeric coatings
- Fire retardant & intumescent coatings
- Ceramic coatings

Industry

- Petro-chemical
- Food and beverage (including wine & beer tanks)
- Water & sewage (including drinking water)
- Nuclear and power generation
- Maintenance and new construction
- Marine industry (including ballast tank)
- Ministry of defence
- Car parks, industrial warehouses
- Fire and heat protection
- Heat insulation
