- Unique, 100% solid surface/moisture tolerant epoxy primer
- Ideal primer for any substrate preparation method e.g. grit blast, water blast (UHP) or mechanical.
- Can be applied in high humidity (>95%).
- Ideal for tank lining or confined spaces.
- No overcoating limitation.
- No requirements for dehumidification, ventilation or heating (substantial cost savings).
- Reduced H&S and fire precaution.
- Long-term corrosion protection (new MIO-Zinc technology).
- Excellent adhesion to rusty or poorly prepared and wet surfaces (>1200psi).
- 1 coat (without the top-coat) protects the substrate in excess of 10 years (independent test certificates available).

RS 500P on a sweating and damp surface

Chemco manufactures an extensive range of products which are designed to meet every corrosion and containment challenge. We offer unlimited technical support including site survey, estimation, inspection and application assistance. An extensive list of our products and industry uses are listed below:

Products

Glassflake coatings
Coatings in contact with food & beverage
Damp or green concrete primers and coatings
Floor coatings
Rust converters and primers
Under-water coatings
Anti-static and conductive coatings
Elastomeric coatings
Fire retardant & intumescent coatings
Ceramic coatings

Industry

Petro-chemical
Food and beverage (including wine & beer tanks)
Water & sewage (including drinking water)
Nuclear and power generation
Maintenance and new construction
Marine industry (including ballast tank)
Ministry of defence
Car parks, industrial warehouses
Fire and heat protection
Heat insulation
