

<b>Client:</b> <i>Diageo Distillery</i>	<b>Industry:</b> <i>Food &amp; Beverage</i>
<b>Scope:</b> <i>Roof and Surface Walls</i>	<b>Date:</b> <i>May 2009</i>
<b>Location:</b> <i>Belfast, Northern Ireland</i>	<b>Product:</b> <i>Epo-chem™ RA 500M</i>

## Overview

The fermentation room required a suitable coating system for the roof and walls. FDA approval was a necessary requirement.

## Challenge

Working in a damp environment to a limited timescale, with no disruption to the manufacturing process and no blasting permitted/feasible.

## Solution

One coat of **Epo-chem™ RA 500M solvent-free, wet tolerant** glassflake epoxy system @ 150μ by brush and roller.

## Outcome

The work was carried out on time, within budget, with no H&S issues, no major delays and more importantly, no disruption to production.

## Benefits

- **Solvent-free**
- Easy to clean/wash
- No major delays to program
- Reduced cost of plant and equipment
- Reduced H&S and Fire Precaution
- Extremely fast and efficient
