

# Chemical Tank Maintenance and Repair System

## *Epo-chem™ RE 500P and Epo-chem™ RW 500*

**Solvent-free, rust tolerant**, high temperature, glassflake epoxy Novolac system offering exceptional resistance to highly aggressive chemicals including ethanol, methanol and caustic soda.

*Epo-chem™ RE 500P: Primer / First Coat*

*Epo-chem™ RW 500: Topcoat / Second Coat*

### System Benefits:

- **Solvent-free**
- Zero VOC
- Any surface preparation method can be utilised: abrasive blasting, water jetting or mechanical
- Excellent chemical and high temperature resistance
- Reduced Health & Safety concerns and Fire Hazard
- Reduced overall project cost and downtime
- Environmentally friendly system
- Low viscosity and easy to apply by brush / roller / airless spray
- Resistance to abrasion, erosion and thermal shock
- Fast curing and quick recoating
