

InD-Cote™

Abrasion Resistant Lining

InD-Cote™ is a three-pack epoxy Novolac compound incorporating a blend of different grades of ceramic fillers and beads.

This is a **high density, high temperature** Novolac epoxy lining designed for very aggressive abrasive environments with the following advantages:

- A seamless, repair and protective coating compound for long-term protection
- **Solvent-free**
- Low odour
- Easy to apply by trowel

InD-cote™ has been specially formulated for fluid-flow equipment, hoppers, nozzles, chutes, vessels, pipe bends and deflector plates. It is recommended to be used in conjunction with **Epo-chem™ RE 500P** (primer) and **Ceram-chem™ RU 500** (topcoat/sealer) for a complete repair system.

Applying InD-Cote™
by trowel

InD-Cote™ applied on a
finished surface

RU 500 as sealer
