

# Potable Water Tank Coating System

## *For Marine & Industrial Applications*

Chemco's potable water tank lining system comprises two products offering an innovative **solvent-free, wet & rust tolerant** solution:

- **Epo-chem™ RS 500P**
- **Epo-chem™ RA 500M**

### System Benefits

- **Solvent-free**
- **Wet & rust tolerant**
- Zero VOC
- Any surface preparation method can be used; abrasive blasting, water jetting or mechanical
- Tested and Certified by NSF International and FDA Approved for potable water applications
- Application in any environmental condition
- Reduced H&S concerns and Fire Hazard
- No disruption to other ongoing work within the vicinity (including hot work)
- No requirements for dehumidification or ventilation
- No recoating limitations

This system has been used extensively in the following types of vessel:

- Cruise Ships
- Container Ships
- Tankers
- Offshore Supply Vessels
- Refrigeration Vessels

Certified to  
NSF/ANSI 61-G
