

Full Deck and Steam Pipe Coating

For Marine Applications

Epo-chem™ RL 500PF is a **wet and rust tolerant**, high solids epoxy which can be utilised either as a one coat primer/finish with good UV resistance or as a high performance coating which can be overcoated with coloured topcoats.

System Benefits

- **High solids**, single coat primer/finish
- **Wet and rust tolerant**
- Any surface preparation method can be utilised: abrasive blasting, water jetting or mechanical
- Can be applied on sweating substrates
- Can be applied and operated at temperatures up to 150°C
- Can be applied in any environmental condition
- No humidity or dew point restrictions
- Good UV resistance and colour stability
- Exceptional adhesion on difficult substrates such as stainless steel, new or old galvanised steel, exotic metals
- Extensively used for protection against CUI (Corrosion Under Insulation)
