

Crude Oil Tank Coatings

Our crude oil tank coating system comprises two products offering an innovative **solvent-free, wet & rust tolerant** solution:

- **Epo-chem™ RS 500P (Primer)**
- **Epo-chem™ RA 500M (Topcoat)**

RS 500P & RA 500M has proven resistance to the chemicals and temperatures found within crude oil cargo tanks, having been used successfully for many years across many industries.

This unique system has also achieved IMO PSPC-COT approval.

System Benefits:

- Solvent-free
- Wet & rust tolerant
- Any surface preparation method can be utilised (abrasive blasting, water jetting or mechanical)
- No humidity or dew point restrictions
- Quick back-in-service times
- No recoating limitations (ease of repair)
- No extensive dehumidification or ventilation requirements
- Other work (including hot work) can continue nearby without disruption
- Compatible with almost all protective coatings, including shop primers and coal-tar epoxies
- Significantly reduced H&S concerns and Fire Hazard
- Long-term, maintenance-free performance
